

United Way of the Lowcountry

Priority Area: Basic Needs

Instructions: Applicant will choose **ALL** of the Key Performance Indicators that are relevant to the program for which they are applying for funding. These indicators will form the basis of program reporting for the 2019-2020 funding cycle. All programs must be able to track program level data using these common indicators.

<u>Goal 1: Housing</u>	
<i>All residents of Beaufort and Jasper Counties will have access to safe, affordable housing options for all demographics, to include resources for inadequate and substandard housing.</i>	
<i>KPI</i>	<i>Outcome</i>
# AND % of participants living in affordable housing, as defined by HUD	<i>Increasing access to safe affordable housing options.</i>
# of households that were moved from unaffordable (more than 30% of households income), to affordable housing options (no more than 30% of the household income)	
# AND % of owner occupied units of substandard housing transformed to livable	<i>Transforming substandard housing to livable through basic repairs.</i>
# of households applying for utility assistance to prevent families from living in substandard housing situations	<i>Reduction in the # of residents determined to be homeless according to HUD.</i>
# of households receiving utility assistance to prevent families from living in substandard housing situations	
# of households applying for rental asst. # of households that avoided eviction due to asst.	<i>CRISIS – Emergency rental or mortgage. Sustainability of housing or prevention of homelessness.</i>
# of households applying for mortgage asst. # of households receiving mortgage asst.	
# of individuals requesting safe shelter # of individuals receiving safe shelter	<i>CRISIS – Emergency shelter options. Reduction in # of residents determined to be homeless.</i>
# of bed nights provided	

<u>Goal 2: Food</u>	
<i>All residents of Beaufort and Jasper Counties will have consistent access to nutritious, healthy and affordable food.</i>	
<i>KPI</i>	<i>Outcome</i>
# of participants who report a reduction in food insecurity	<i>Reduction in food insecurity</i>
# of clients required to travel more than 5 miles to obtain emergency food OR # of miles client travels to obtain emergency food	<i>Assess barriers to healthy food access for populations underserved</i>
# of educational opportunities provided. # of clients who receive education on healthy food options. After education, # of clients who feel confident they will take that knowledge and make smarter, healthier choices for their family.	<i>Increase/improve provision of education on health benefits of nutritional food and making healthy nutritional choices.</i>
# of Pounds of healthy food options, such as fruits and vegetables, offered by program # of clients selecting healthy food options	<i>Increase healthy food options at distribution centers and local food programs to increase overall healthy eating habits that can impact a community's health.</i>

Goal 3: Transportation

Residents of Beaufort and Jasper Counties will have increased access to affordable transportation options and/or systems that provide reasonable, timely, effective access to transportation.

<i>KPI</i>	<i>Outcome</i>
# of ride requests # of rides provided # of individuals provided information on transportation options available # of inquiries about using public transportation	<i>Increased access to affordable transportation through coordination of services.</i>
# of clients requiring alternate forms of transportation # of clients that received alternate forms of transportation	<i>By increasing access to alternative transportation options, barriers to receiving services are removed</i>
# of rides requested # of rides provided # of requests not being met	<i>Increased ability for agencies to provide wraparound services needed when transportation proves to be a barrier to service provision</i>
